Jon,

Just when I think I've seen it all, something new happens in the Georgia Senate runoff.

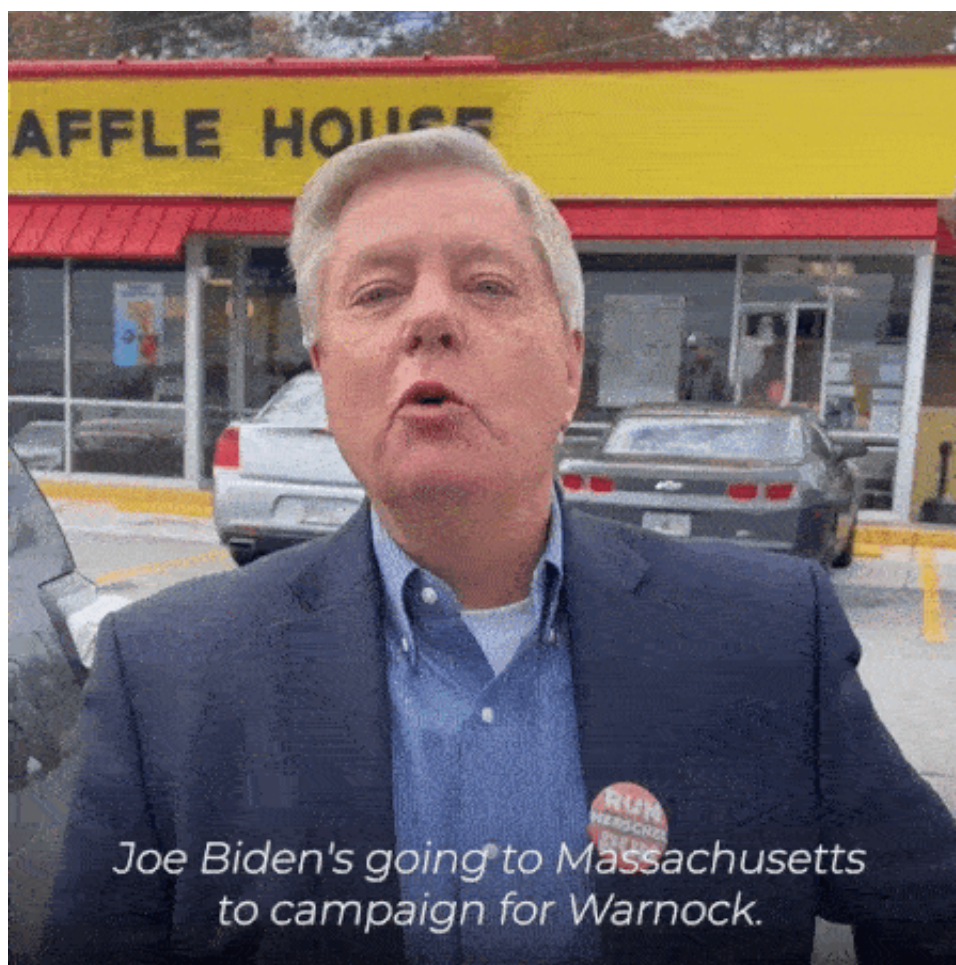

**Joe Biden campaigned yesterday for Raphael Warnock ... in BOSTON.**

The Warnock campaign is scared to be seen with President Biden on the same stage, so they sent him to NEW ENGLAND where he attended a phone bank at a union hall making calls to voters in GEORGIA.

**Not only did President Biden make calls into Georgia to get out the vote for Warnock, but he also helped Warnock raise MILLIONS of LIBERAL DOLLARS at a Boston fundraiser.**

Jon, yesterday I campaigned for Herschel IN GEORIGIA (I know – a shocking concept). While I was there, I recorded a short video about the race after a quick lunch at Waffle House (a great Georgia-based company). [Click here to watch the video:](#)

**Raphael Warnock votes with Joe Biden 96% of the time, but he doesn't want Georgians to know. Biden's policies are so unpopular in Georgia that Senator Warnock sent the President to campaign 1,000 miles away from Atlanta!**

Democrats are pouring money into Georgia from liberal states like Massachusetts and California because they know Raphael Warnock is a reliable vote for their radical agenda.

**Don't let Massachusetts buy a 3rd senator. Please, help Herschel in the final hours of this race. Chip in \$5, \$10, or even \$34 for #34.**

With the runoff election on Tuesday, IT'S NOW OR NEVER!

Thanks,

Lindsey Graham

Herschel believes that America is at a crossroads, and he refuses to sit on the sidelines while national leaders take our country down the wrong path. Herschel Walker is a kid from a small town in Georgia who has lived the American Dream, and now he is running as a Republican for the United States Senate to keep that dream alive for everyone.
